## CLAM QUARANTINE ORDER

A quarantine of all clams from the ocean shore of Santa Cruz County and Monterey County, including Monterey Bay, is hereby established.

All health officers and food inspectors are instructed to enforce the provisions of this quarantine and to prohibit the taking, sale, or offering for sale, of clams in the district specified. This quarantine order shall be effective until further notice.

Said action is taken for the preservation of the public health.

BERTRAM P. BROWN,  
 Director of Public Health and  
 Executive Secretary, State  
 Board of Public Health.

August 28, 1941.

## ANNOUNCE EXAMINATION FOR MEDICAL OFFICER

The State Personnel Board has announced an examination for Medical Officer, Bureau of Venereal Diseases, California State Department of Public Health. The applications for this examination must be filed by midnight of October 2d with the State Personnel Board at Sacramento. Application forms may be obtained by writing to the offices of the Personnel Board in Sacramento, Los Angeles or San Francisco. Candidates must possess valid licenses to practice as physicians and surgeons in California as issued by the State Board of Medical Examiners. They must have graduated from an approved medical school and their training must include at least six months of special work in the medical care of venereal diseases and one year of licensed medical practice or some equivalent combination of education and similar experience.

\* Cases charged to "California" represent patients ill before entering the State or those who contracted their illness traveling about the State throughout the incubation period of the disease. These cases are not chargeable to any one locality.

The required methods of work are no secret; for they have been employed by thinking individuals ever since the time of Socrates. Here one can not build without laying foundations. One can not, for example, be a radio expert without the principles of electricity. One can not be a business expert without economics. One can not be an engineer without getting a knowledge of mathematics. Thus it runs throughout the cycle of subjects. Successful work is a kind of development; so before going far one must master its preliminary and prerequisite stages. There is no other valid way. One can not build a tower without first laying a solid foundation.
